

Ações / Obras previstas:

Actions / Works planned:

December 2021 - acquisition of specialized arboriculture services, using the technique of dismantling and pruning for the conservation and maintenance of large trees, using the technique of climbing ornamental trees, consisting of the pruning of 26 trees and the removal of 25 trees - There was a need to acquire specialized services for the pruning and removal of large trees using climbing, located in the forest area and in the Urban Park, which may pose some risk to users, which is an intervention to ensure the safeguarding of people and property. The specimens to be intervened are mostly located next to roads or sports facilities, some are already dry, others with a large percentage of dry branches or showing low vitality.

- Actions to plant new trees in the forest area of CDNJ, with 40 elm trees being planted in the area of the Balteiro Farm, and 40 new trees, next to the Sta. Catarina mill.
